Mandarin for medical Purposes

This specially designed Program offers an extremely practical focus on the Mandarin you need to work more effectively in a Mandarin context medical environment.

Pharmacy Mandarin

Excel Learning Centre's tailored Pharmacy Mandarin programs are designed to strengthen you with the key skills, tools and terminology you need to operate in Mandarin context environment.

Given the closed contact with Mainland China, communication with effective and fluent use of language is vital important.

Suitable for

Qualified medical professionals and medical students in the clinical phase of their studies who wish to improve their medical Mandarin in order to function more effectively in Mandarin or attend medical symposiums, congress or seminars in Mainland china.

Major area of focus

- Effectively use of medical terminology and abbreviations
- Fluency enhancement for empathetically acquiring information from and presenting information to patients
- Formal presentation skills on areas of medical specialization and interest

On completion

- More confidence liaising with native speakers of Mandarin in medical profession or with general public
- Ability to read and analyze medical histories and case studies

Combine with

- Cross-culture awareness training

Duration

Three week (50 hours). Tailor-made individual or in-company group training is also available.

Suitable for

Pharmacy professionals who require a tailored pharmacy Mandarin solution with the benefit of delivery by a pharmacy practitioner with genuine experience of pharmacy.

Major area of focus

- Key pharmacy language and relevant terminology
- Functional skills specific to your position
- Review and consolidation of grammatical accuracy
- Tools for effective communication

On completion

- Greater confidence when discussing field documents and data
- Increase verbal fluency for face-to-face negotiation

Combine with

- Business Culture Awareness training

實用醫學漢語

本課程是臨床醫學專業全英語教學外國或香港醫生專用漢語課程，為其到中國醫院見習、實習或行醫而設。本課程的內容主要是醫院住院部各科室常用的漢語，也涉及一些門診常用的漢語，以說和聽為主，兼顧寫。具體來說，包括醫院各科室的中文名稱、常用藥物的中文名稱、人體各種結構的中文名稱、常見病的中文名稱、各種常見病主要癥狀及體徵的漢語表達、實驗室檢驗報告及病歷的書寫、住院部裏醫生與病人的日常用語、實習生與指導醫生的日常用語等。

內容簡介

近年來，隨着CEPA的政策落實，前來中國行醫的香港醫生逐年增多，[實用醫學漢語]專為計劃北上行醫的醫生而設計。課程內容以標準的普通話表達醫生對醫學或病人的講述。
